ONLINE DANCE

We are committed to your child's mental health and artistic, creative and physical development. At a time when so many other things have been taken away, it is our mission to provide the absolute best to our dancers.

- 1) Dancers have worked hard for their training and they owe it to themselves to continue even though they are at home.
- 2) Online dance training will enrich what they've learned in the studio and keep repetition on all students dance technique.
- 3) Online dance education will make them analytical, thoughtful, and critical thinkers.
- 4) It will teach them that 'the show must go on' even when plans change or challenges arise.
- 5) It will keep them physically, mentally, and emotional healthy while they are quarantined.
- 6) It will give them a sense of connection and community when they're not seeing their friends.
- 7) It will help them maintain a sense of normality and routine while so much is happening around them.
- 8) Our dancers will benefit from maintaining their connection with their teacher, providing continuity and giving them something to do when their days are now mainly spent inside.
